

**Chemistry Europe** represents 16 European chemical societies from 15 European countries who co-own 20 scholarly journals.

**We support** their members at every stage of their careers as they strive to solve the challenges that impact humankind.

**About Chemistry Europe**  
Founded in 1995, **Chemistry Europe** is an association of 16 chemical societies from 15 European countries, representing over 75,000 chemists. It publishes a family of high-quality scholarly chemistry journals, covering a very broad range of disciplines.  
Its **mission** is to evaluate, publish, disseminate, and amplify the scientific excellence of chemistry researchers from around the globe in high-quality publications. It supports its members at every stage of their careers as they strive to solve the challenges that impact humankind. In all its work, Chemistry Europe values integrity, openness, diversity, cooperation, and freedom of thought.

**Member Societies**  
Chemistry Europe comprises 16 chemical societies from 15 countries. [Learn more.](#)

Covers recent advances in **research, industry,** and **education** in **texts, videos,** and **interactive features**

Interview with Mai Thi Nguyen-Kim

DOI: [10.1002/chemv.202100054](https://doi.org/10.1002/chemv.202100054)  
Author: Christian Remenyi, Vera Koester  
Published Date: 03 August 2021  
Copyright: Wiley-VCH GmbH

Dr. Mai Thi Nguyen-Kim is probably the best-known German science communicator. This chemist with a Ph.D. reaches 1.3 million subscribers with her YouTube channel maiLab. She is also a television presenter (with her own show starting in autumn) and bestselling author. She has received many awards, including the Order of Merit of the Federal Republic of Germany.
